

## AMENDMENTS TO THE ABSTRACT

Please replace the Abstract with the following rewritten Abstract:

A domestic ~~Domestic~~ seeding device comprising at least two substantially flat containers able to stacked one on top of the other, each of which receives a layer of seeds for the domestic cultivation of relative hydroculture shoots. The device also comprises at least a supporting and distancing element arranged between every pair of adjacent containers, in order to define between the latter a gap for the passage of a flow of air in contact with the seeds/shoots arranged in every container.
